Ideation and Brainstorming Map:

1 Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

⏱ 5 minutes

PROBLEM

One of the major problem the world is facing that is population growth.

→ Before you collaborate

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

⏱ 10 minutes

A **Team gathering**
Define who should participate in the session and send an invite. Share relevant information or pre-work ahead.

B **Set the goal**
Think about the problem you'll be focusing on solving in the brainstorming session.

C **Learn how to use the facilitation tools**
Use the Facilitation Superpowers to run a happy and productive session.

Key rules of brainstorming
To run an smooth and productive session

- Stay in topic.
- Defer judgment.
- Go for volume.
- Encourage wild ideas.
- Listen to others.
- If possible, be visual.

2 Brainstorm

Write down any ideas that come to mind that address your problem statement.

⏱ 10 minutes

P.Abitha

- One of the major problem the world is facing is the problem of the exponential growth of the population.
- More people means an increased demand for food, water, housing, energy, health care, transportation and more.
- And all that consumption contribute to ecological degradation, increased conflict, and a higher rise of regressive disorder like pandemics.
- Population problem indicates the pervasive growth of population can have on many aspects of human welfare.

S.Jeeva

- Nearly all our economic, social and political problems become more difficult to solve in the face of uncontrolled population growth.
- Overcrowding leads to further demand for limited resources and this in turn, can lead to more conflict and welfare.
- Values of family planning and sustainable growth needs to be instilled not only in children but adults also.
- Many factors contribute to these unsustainable trends, including falling mortality rates, underutilized contraception and lack of education for girls.

S.Sudalai selvin

- People around the world need to be made aware of the ti-effects of global overpopulation.
- The lack of this awareness and education is one of the reason for this growth in population.
- Increased government debts rising inflation.more number of illiterates.
- Population growth will lead to economic growth with more people able to produce more goods.

Population growth is the increase in the number of people in a population or

Population helps us get an estimate of the number of beings and how to act accordingly. For instance, if we know the particular population of a city, we can estimate the number of resources it needs.
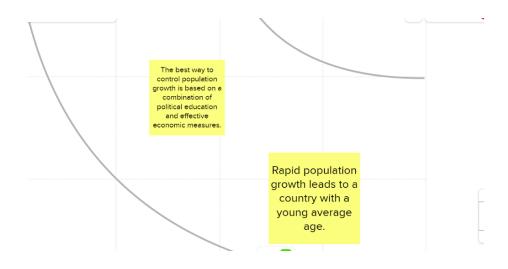

Population growth will lead to higher tax revenues which can be spent on public goods, such as health care and environmental projects. The obvious evaluation is to say, the crucial thing is not GDP, but GDP per capita.
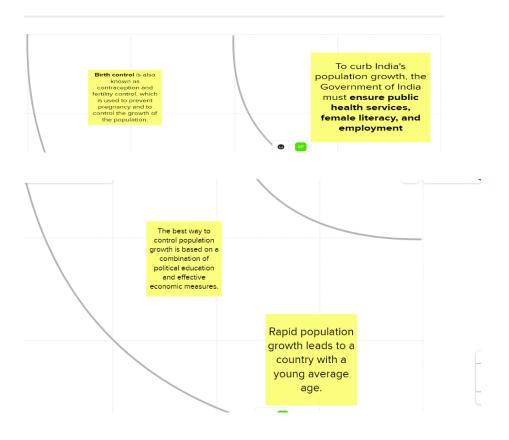

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

🕐 **20 minutes**

Birth control is also known as contraception and fertility control, which is used to prevent pregnancy and to control the growth of the population.

To curb India's population growth, the Government of India must **ensure public health services, female literacy, and employment**

The best way to control population growth is based on a combination of political education and effective economic measures.

Rapid population growth leads to a country with a young average age.

Birth control is also known as contraception and fertility control, which is used to prevent pregnancy and to control the growth of the population.
